REIGNITING PROFITABLE GROWTH

Closing the performance gap and positioning Tecan for future growth with “Rewired”

- › 2025 performance does not reflect the potential of Tecan
- › Performance decline driven by market headwinds & inconsistent execution
- › Strong market position and strategic relevance remain intact
- › “Rewired” transformation program launched

Future proof Tecan

SEIZING THE OPPORTUNITY OF SCALABLE AUTOMATION

AI and data drive demand for scalable, high throughput automation

TECAN'S PLATFORM: TWO GROWTH ENGINES, ONE VALUE CHAIN

Life sciences in a sweet spot – Leveraging innovation, customer proximity, and global infrastructure

FINANCIALS 2025, A DETAILED LOOK

Tania Micki, CFO

2025 ORDER ENTRY AND SALES PERFORMANCE

ORDER ENTRY

ORDER ENTRY 2025

- > -0.3% in CHF and +3.8% in LC
- > Book-to-bill ratio above 1 in both segments
- > H2: +8.6% in LC

SALES

SALES 2025 VS. 2024

- > Reported sales -5.5% in CHF, -1.6% in LC
- > H2: Returning to moderate sales growth of +0.4% in LC (-5.2% in CHF)

2025 SEGMENT SALES

SEGMENT SALES

LIFE SCIENCES BUSINESS

- › Reported sales -5.0% in CHF, -1.0% in LC
- › Academia & Government: demand impacted by funding uncertainty
- › Biopharma: stable sales, strong H2 orders
- › Diagnostics: solid sales and order growth
- › H2: sales -3.2% in LC
- › Order entry up low single digits; accelerated in H2
- › Book-to-bill ratio above 1 in 2025

PARTNERING BUSINESS

- › Reported sales -5.9% in CHF, -2.0% in LC
- › Academia & Government funding uncertainty and weak life science demand impacted Cavo and Paramit
- › Strength in diagnostics drove solid growth in Synergence
- › Medical accounts contributed positively to Paramit CDMO services
- › H2: sales +3.3% in LC
- › Order entry up mid-single digits for the year; low double-digit growth in H2
- › Book-to-bill ratio above 1 in 2025

2025 EBITDA

EBITDA

ADJ. EBITDA MARGIN (% = % OF SALES)

ADJUSTED EBITDA

- › Adj. EBITDA reached CHF 142.1 m, CHF 22.3 m below 2024

ADJUSTED EBITDA MARGIN

- › Adjusted EBITDA margin decreased to 16.1% (2024: 17.6%)

MAIN EFFECTS EXPLAINING DIFFERENCE OF -150 BPS:

- › (-) Exchange rates
- › (-) Tariffs
- › (-) Lower sales volumes
- › (+) Product mix
- › (+) Effective cost control, global operating footprint optimization and efficiency gains

Note: Reconciliations to adjusted EBITDA are provided in the CFO Report of the 2025 Annual Report at www.tecan.com/investor-overview

2025 SEGMENT PROFITABILITY

ADJ. EBITDA (IN CHF M)

ADJ. EBITDA MARGIN (% = % OF SALES)

LIFE SCIENCES BUSINESS

- › Adj. EBITDA margin amounted to 16.5% of sales
- › Factors contributing include:
 - › (-) Tariffs
 - › (-) Exchange rates
 - › (-) Lower sales volumes
 - › (+) Price increases
 - › (+) Cost control

PARTNERING BUSINESS

- › Adj. EBITDA margin increased to 17.7% of sales
- › Factors contributing include:
 - › (-) Exchange rates
 - › (-) Tariffs
 - › (-) Lower sales volumes
 - › (+) Product mix
 - › (+) Cost control

Note: Reconciliations to adjusted EBITDA are provided in the CFO Report of the 2025 Annual Report at www.tecan.com/investor-overview

2025 NET PROFIT AND EARNINGS PER SHARE

ADJ. NET PROFIT

ADJ. EARNINGS PER SHARE

NET PROFIT

- › Adjusted net profit: CHF 87.0 m (2024: CHF 103.1 m)
- › Reported net loss: CHF 110.7 m (2024: net profit of CHF 67.7 m), impacted by:
 - › CHF 139.5 m in non-cash impairment charges
 - › Lower operating profit
 - › Reduced financial result due to FX from the translation of US dollar-denominated assets into CHF

EARNINGS PER SHARE

- › Adjusted earnings per share: CHF 6.87 (2024: CHF 8.08)
- › Reported basic earnings per share: CHF -8.74 (2024: CHF 5.30)
- › Average number of shares outstanding on Dec. 31, 2025: 12.7 m (Dec. 31, 2024: 12.8 m)

Note: Reconciliations to adjusted EBITDA, net profit, and EPS are provided in the CFO Report of the 2025 Annual Report at www.tecan.com/investor-overview

IMPAIRMENT AND ASSET WRITE-OFF

Portfolio review results in strategic impairments

- › Discontinue acquired design functions and leverage existing capabilities to strengthen Paramit's CDMO

› CHF 139.5 m goodwill & PPA impairment

- › Exit non-value-creating activities at Tecan Genomics

› CHF 5.3 m asset write-off

- › Sharpening the portfolio
- › Reallocating capital to higher-growth, higher-margin areas
- › Strengthening the asset base for long-term value creation

2025 CASH FLOW

CASH FLOW FROM OPERATIONS OF CHF 138.0 M (2024: CHF 148.5 M)

- › Cash conversion improved to 118% of reported EBITDA (2024: 100%)
- › Decreased inventories, increase in accruals and provisions
- › Days Sales Outstanding (DSO) at 46 days (2024: 52 days)
- › Includes CHF 61.0 M for amortization & depreciation (2024: CHF 66.8 M) and CHF 139.5 M impairment of goodwill and PPA asset

INVESTMENTS OF CHF 76.5 M (2024: CHF 48.6 M), INCLUDING

- › CHF -10.2 m newly capitalized development costs (2024: CHF -7.4 m)
- › CHF -25.1 m PPE/other intangibles (2024: CHF -17.7 m)
- › CHF +112.2 m for financial assets (mainly from time deposits repayment)
- › CHF +3.9 m income from Financial Assets (2024: +5.4 m)

CASH FLOW FROM FINANCING ACTIVITIES INCLUDES

- › CHF -38.0 m dividend payments (2024: -38.3 m)
- › CHF -33.4 m purchase of treasury shares (2024: -28.9 m)
- › CHF -100.1 m change in bond financing

NET LIQUIDITY¹ POSITION AT CHF 160.8 M (Dec. 31, 2024: 153.7 m)

¹ Net liquidity / net debt = cash and cash equivalents plus short-term time deposits minus short- and long-term debts

CAPITAL MARKET UPDATE

Monica Manotas, CEO

WHERE WE ARE TODAY

A leader in our core areas – performance impacted by loss of focus

Diagnosis

The issue

Distraction and inconsistent execution weakened performance and confidence

Core intact

Automation leadership, strong IP, trusted brands, deep customer ties

Financial resilience

Strong balance sheet, cash generation, investment capacity

Forward momentum

Focus restored

Clearer priorities, tighter portfolio and disciplined execution

Path to profitable growth

Leadership, innovation, customer proximity, financial strength

ANTICIPATED MARKET TRENDS 2026

Steady improvement expected as markets recover gradually

Academia & government

Ongoing uncertainty
and limited funding
visibility

Expected range

Biopharma

Increased CAPEX in
targeted growth areas

Expected range

Diagnostics

Solid demand driven
by advanced
diagnostics

Expected range

MedTech

Solid growth in
outsourcing

Expected range

SERVING ATTRACTIVE END MARKETS

The century of biology and technology advancements are driving demand for automation

Biopharma:

- › AI is accelerating drug discovery and enabling personalized medicine

Diagnostics:

- › Advances, including AI-driven diagnostics and companion diagnostics, enable earlier, more effective interventions

Academia & government:

- › Multi-omics and new technologies accelerate large-scale biological discovery

MedTech:

- › Advanced procedures and devices enable precise, proactive care and faster recovery

WHAT AI MEANS FOR TECAN

AI-driven drug discovery is increasing demand for lab automation

WHAT AI MEANS FOR TECAN

This positive trend builds on existing market momentum

CUSTOMER SUCCESS STORIES

- › Bottleneck shifting to the wet lab
- › Effective AI demands high-quality data
- › High-quality data depends on high-quality instrumentation

Officinae Bio: AI biofoundry

- › AI-driven biofoundry for automated drug discovery
- › Tecan Fluent at core of closed-loop system

Cellares: CellQ

- › Launched cGMP QC platform based on Tecan Fluent
- › AI used to enhance scalability

FUTURE-PROOFING TECAN

Rewired program: Delivering CHF 1 bn revenue, 20% adj. EBITDA

2028 TARGETS

1 bn

Sales CHF m

20%

Adj. EBITDA

1

Portfolio discipline

- › Build on our strengths
- › Invest in scalable, differentiated segments
- › Exit non-core businesses

2

Commercial excellence

- › Sharper segmentation
- › Value-based pricing
- › Agile go-to-market

3

Operational excellence

- › Scalable, resilient operations that convert growth into margins and cash

4

Performance culture

- › Successful execution relies on ownership, accountability and collaboration

PROGRAM 'REWIRED'

Comprehensive performance transformation program across all areas

SALES BRIDGE 2025-2028

LIFE SCIENCES CORE PORTFOLIO

CHF 35-45 m
contribution

Deliver resilient growth with future-proof core

Instruments

Digital offering

Service offering

Consumables and reagents

- > **Focus on our core platforms; while divesting and discontinuing selected sub-scale businesses**
MSD annual growth (LC) in LiHa franchise delivered since 2019
- > **Building on momentum in high-growth segments**
DD growth vs PY in US genetic testing labs delivered
- > **Positioned as automation partner of choice for AI-powered labs**
Digital offering allowing robust, connected & API-enabled LiHa
- > **Scale core portfolio growth with commercial excellence**
Commercial capabilities are in place to enable above-market growth

Graph illustrating revenue contribution in Life Sciences Business 2025, does not reflect exact values

LIFE SCIENCES CORE PORTFOLIO

Our digital offering and AI readiness uniquely differentiate our instruments

Upgrading the core to precisely meet evolving customer demands

Liquid handling for conventional use cases

Introspect: Best in class lab analytics platform

Consistent performance improvement across all instruments using Introspect

- **Increased quality**
with +2% run success rate annually
- **Increased performance**
with +6% value-added time annually
- **Increased efficiency**
with +14% active run time vs. tip consumption annually

Liquid handling enabling AI-powered labs

Upgrade 2026: Agentic AI

Turning data into actions with Introspect

Note: Percentages show CAGR, based on anonymized aggregated data for all instruments connected to Introspect

LIFE SCIENCES CORE PORTFOLIO

Scale a smarter, more data-driven go-to-market engine

Value-based pricing

- › Sharpen our value proposition and monetize differentiated customer impact by introducing value-based pricing strategies

Sales force effectiveness

- › Launching state of the art CRM to digitalize commercial operations
- › Increase market intelligence with AI based signal scanning
- › Leverage digital and inside sales channels across product exploration, ordering and support

Key account management

- › Intensify key account management to increase share of wallet
- › Increase market share by targeting strategic accounts

LIFE SCIENCES NEW PRODUCT OFFERING

Capture growing demand for high-throughput, integrated robotic workcells

- Acquired FlowPilot™ software for robotic workcell orchestration
- Strengthens Labwerx custom automation solutions
- Expands addressable automation market

Unlocking >USD 200 m incremental TAM

LIFE SCIENCES REGIONAL EXPANSION

CHF 5-15 m contribution

Focused expansion into high-potential regions and market segments

- › Geographic expansion is central to medium-growth in Life Sciences Business
- › Growing presence in underpenetrated, high-growth regions
- › Direct entry into South Korea drove double-digit growth in 2025
- › India entry on track for entrance by April 2026, with a hybrid model, primarily targeting biopharma
- › Further geographical expansion being assessed

Regional expansion adds over CHF 150 m to addressable market

PARTNERING: CORE OFFERING

CHF 15-25 m
contribution

Rebuilding momentum with core accounts, products and services

Synergence™
Customized OEM systems

Cavro®
Standard and customized
OEM components

Paramit®
Contract development
& manufacturing

- › Synergence & Cavro: Enable successful ramp-up & commercial launch of **10+ customer products**
- › Paramit: Ramp up **5+ recently won contract manufacturing programs**
- › Intensify **key account management** to grow and protect share of wallet through, e.g., customer-centric product life-cycle management
- › Mitigate impact from **end-of-life products** by converting customer to next-gen solutions

PARTNERING: NEW WINS & OFFERS

CHF 30-40 m
contribution

Confident to improve ability to capture & convert outsourcing opportunities

Synergence™
Customized OEM systems

Cavro®
Standard and customized
OEM components

Paramit®
Contract development
& manufacturing

- › Double down on **identified targets** with strong growth potential in IVD & Life Sciences (e.g., molecular oncology, cell biology) and MedTech (e.g., cardiovascular, surgical, critical care & wearables)
- › Intensify **collaboration & agility** of Sales and R&D teams to realize new wins with identified projects at targeted accounts
- › Deliver on our innovation roadmap for **next-gen Cavro products**
- › Establish **last-mile development services** to enhance service depth and value creation for contract manufacturing customers

ADJ. EBITDA BRIDGE 2025-2028/30

OPERATIONAL EXCELLENCE

Operational initiatives in manufacturing , R&D and G&A driven by “REWIRED” program

COST OF PROGRAM 'REWIRED'

Transformation program to cost CHF 45-60 m in OPEX and 30-35 m in CAPEX

¹ Assumes greenfield build of manufacturing facility

INNOVATION ENGINE

Modular platform architecture for solution scalability in high-growth markets

Areas of priority, non-exhaustive

5-year market CAGR

FUTURE CAPITAL ALLOCATION

Capital allocation focusing on growth and ROIC

FINANCIAL GOALS

Above-market growth

Accretive

PRIORITIES FOR FUTURE CAPITAL ALLOCATION

1

Organic growth

- › Transformation Program to address performance gaps
- › Continuous investment in R&D, focus on high growth areas
- › Disciplined CAPEX to support business growth

2

M&A

- › Focus on strengthening and expanding Tecan's Life Science portfolio
- › Targeted M&A prioritizing deals with attractive ROIC potential

3

Dividends

- › Sustainable and contiguously increasing dividends while maintaining a strong Balance Sheet

4

SBB

- › Return excess cash through share buy backs

FUTURE M&A FOCUS

M&A to focus on assets with life science exposure and ROIC

1

Scale up

- › Adding large new vertical adjacent to Tecan's core – going beyond liquid handling

2

Close strategic gaps

- › Small- to mid-size bolt-on acquisitions addressing strategic needs across individual business segments

Priority

- › Focus on strengthening and expanding Tecan's Life Science portfolio

PERFORMANCE CULTURE

Successful execution relies on ownership, accountability and collaboration

- > **Our people**
are the foundation of our transformation
- > **A culture of performance, ownership and accountability**
drive exceptional value for customers and shareholders
- > **Our global footprint**
becomes a competitive advantage through collaboration
and rapid deployment of best practices
- > **We are building a destination for top talent,**
aligning the entire organization toward one goal

FINANCIAL OUTLOOK 2026

Our aim is to outperform the underlying market

Sales
+LSD (LC)

Adj. EBITDA margin
15.5-16.5%

OUTLOOK AND TARGETS - OVERVIEW

Measure success through clear financial targets based on transparent roadmap

OUR AMBITION

To deliver profitable growth for shareholders

- › Leadership position in liquid handling and laboratory automation

- › Attractive markets where automation is essential and AI is a catalyst for growth

- › Committed to transforming and future-proofing Tecan
